FOR IMMEDIATE RELEASE

Procera Networks Announces New Partner Solunet, Leading Systems Integrator in North and Central America

Solunet Joins ProceraPro Partner Program, will Market and Support Procera's PacketLogic to Service Providers, Higher-Education Institutions and Others

LOS GATOS, CA and WEST MELBOURNE, FL – (MARKET WIRE) – 11/05/2007 — Procera Networks, Inc. (Amex: PKT), a pioneering developer of telco-class network traffic and service management infrastructure equipment, today announced that Solunet, Inc., a leading technology integrator and solutions provider for the service-provider market, has joined the newly announced ProceraPro channel partner program (see accompanying press release). Solunet's customer base includes independent Telcos, competitive local exchange carriers (CLECs), emerging carriers and enterprises throughout the U.S., Canada, Central and Latin America and the Caribbean.

"We are very selective in the technologies we choose to market and support, and Procera's PacketLogic has proved to offer the robust performance, flexibility, scalability and ease of use that our customers demand," said Dan Kinnick, vice president of sales for Solunet, Inc. "Further, the ProceraPro partner program complements our business through its comprehensive program of training, support and materials, giving our team the tools required to compete effectively."

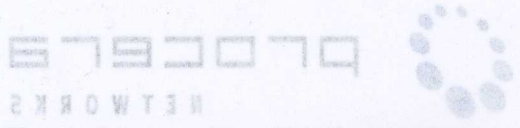

"Solunet has built a strong reputation in the industry through their extensive knowledge of and work with service providers – a demanding environment that requires a deep understanding of complex networks and business models," said Albert Lopez, vice president of worldwide marketing for Procera Networks. "Together, PacketLogic and the new ProceraPro program give channel partners such as Solunet a strong foundation to build upon and grow their business."

The multi-tier ProceraPro Partner Program will build a worldwide network of high-quality, certified resellers that are committed to providing world-class products, service and support to their customers. The PacketLogic product family includes the PL5600, PL7600, PL7620 and PL9200 models, which range from 2 Mbps to 8 Gbps bidirectional throughput capacity. The modular software design includes the core Surveillance module and optional Filtering, Traffic Shaping, Statistics and Web Statistics modules.

About Solunet, Inc.

Solunet is a leading technology integrator and solutions provider specializing in a full range of integrated communication solutions that drive next generation networks for both the service provider and enterprise markets. Solunet's comprehensive voice, data, and video networking solutions, from single manufacturer solutions to multi-vendor recommendations, enable customers around the world to build converged networks and to offer network-based multi-media services for the residential and enterprise markets. Since 1992, Solunet has built a solid reputation for crafting integrated solutions around superior technologies. Solunet delivers a suite of high-performance technology solutions encompassing end-to-end broadband, Optical, VoIP, multimedia services and applications, and wireless broadband designed to deliver the network capabilities that connect people worldwide. About Procera Networks, Inc.

Founded in 2002, Procera Networks, Inc. (Amex: PKT) is a global provider of intelligent network traffic identification, control and service management infrastructure equipment. Procera's core product suite, the PacketLogic™ line of appliances, provides the most accurate application identification available today by using the industry leading connection identification engine DRDL™ (Datastream Recognition Definition Language). PacketLogic is deployed at more than 400 broadband service providers (xSPs), Telcos, colleges and universities worldwide. For more information, visit <http://www.proceranetworks.com>

Safe Harbor Statement

This press release contains forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995 (the "Act"). In particular, when used in this press release, the words "plan," "confident that," "believe," "scheduled," "expect," or "intend to," and similar conditional expressions are intended to identify forward-looking statements within the meaning of the Act and are subject to the safe harbor created by the Act. Such statements are subject to certain risks and uncertainties and actual results could differ materially from those expressed in any of the forward-looking statements. Such risks and uncertainties include, but are not limited to, the ability of Procera to commercialize the applicable technology and introduce products and the acceptance of those products by the market, the ability of resellers to sell the Procera products, market conditions, the general acceptance of the Company's products and technologies, competitive factors, timing, and other risks described in the Company's reports and filings with the SEC (Securities and Exchange Commission) from time to time.
